

KLARI-FUSE 2

FK-PROBE

BF-PROBES

Features

- 8-channel measuring module with 8 parallel ASICs and 1 shared microcontroller
- all channels are applicable for current-, voltage- or temperature-measurement, using 1 PROBE for each channel
- easy measurement application to various measurement tasks
- galvanic isolation of 80 V DC between both measuring channels and interfaces CAN, USB and supply
- **PROBE variants:**
 - current I-PROBE (LI-, MICRO2-, FK1-...FK3-, J-CASE, HI-PROBES)
 - voltage U-PROBE
 - temperature T-PROBE (PT1000)

A detailed technical description is contained in our user manual "KLARI-PROBES"

Measuring features:

- application both in lab and in vehicle:
measurement of current, voltage and temperature at individual appliances
- data output via 1 x CAN 2.0 A/B with 8000 Frames/s
and/or USB-2.0-Schnittstelle

Version

- aluminium housing 165/108/42 mm (l/w/h)
- protection class IP65
- temperature range -40...+85°C
- supply 6..50 V DC

A detailed technical description is contained in our user manual

Delivery

- measurement module (please order PROBES separately),
- PC Software for configuration via CAN or USB-2.0 interface
- CAN database and documentation on CD ROM

Accessories

- cable harness IP65
